## Back to the Future

*Belt Plant in Springfield, Missouri*

*Belt Plant in Fort Scott, Kansas*

### Back to Basics

The future is bright for our industry and company. With a tradition of excellence, we stay true to our company principals by valuing quality, performance, and customer-driven initiatives. Learning from the past with a common vision for the future, you can rely on Carlisle belts by Timken today and tomorrow.

### Back to the USA

Carlisle belts by Timken are proudly made in state-of-the-art ISO registered manufacturing facilities in Springfield, Missouri and Fort Scott, Kansas. Timken quality products are made in the U.S. heartland by craftsmen focused on customer satisfaction.

### Back to the Future

Through a commitment to excellence, we're dedicated to quality in everything we do. We have enhanced our capabilities through the addition of personnel, the implementation of new operating systems, and the commitment to expand our domestic manufacturing output. We have realigned our focus – on our distributor partners and on the future. Carlisle belts by Timken will be your premier belt and drive solution provider.

# TIMKEN

The Timken team applies their know-how to improve the reliability and performance of machinery in diverse markets worldwide. The company designs, makes and markets high-performance mechanical components, including bearings, gears, chain, belts and related mechanical power transmission products and services.

**Stronger. By Design.**
